

Mountain Creek State High School

20 August 2015

TO WHOM IT MAY CONCERN

Terry Sampson Painting Services have completed many large and small painting jobs at Mountain Creek State High School since 2011. I can't speak highly enough about the professionalism of Terry and his team. We have had painters in this school in the past that I could not classify as professional painters and consequently this school has gone through a large selection process to choose the right business for painting both internally and externally. We are however, required to put all jobs out to 'offer'. Terry has won the majority of contracts in the past three years for not only being the highest in conformity to requirements and service but also the most reasonable in price.

Terry is flexible with his approach and manages his team well. He ensures that he allocates the right number of painters to a job to meet timelines and client requirements. He has a strong team that consists of long term members who work well together. Their efficiency is admirable, and I have had staff and other contractors comment to me on how the team can work quickly together and produce a high level of work. Terry's team has had to work around classroom furniture and equipment and have always been careful to place things back where they were without complaint from our sometimes unorganisation. They are also security minded and can be trusted to lock up and turn alarms on if required. I have also entrusted Terry's team to work in school time around staff and students and have never had an issue. They work quietly, methodically and professionally.

Whenever a paint job is completed as part of government requirements I complete a painting checklist that goes through the workmanship and quality. Terry's team always comes through with flying colours, and that is why I refer to them as Professionals in their field.

If you require any other information regarding Terry Sampson Painting I would only be too happy to oblige. Please feel free to contact me on 5457 8333 if you wish to.

Yours sincerely
